- Libraries: Pandas, NumPy, Matplotlib, Seaborn
- Database Management Systems, EDA, Problem Solving

PROJECTS

IPL 2025 Exploratory Data Analysis (EDA)

GitHub: github.com/Anassk-ds/IPL-2025-EDA

- Conducted data analysis on IPL 2025 batting and bowling datasets using Python.
- Applied preprocessing, statistical analysis, and data visualization techniques.
- Generated insights using Matplotlib and Seaborn.

CERTIFICATIONS

- Internet of Things (IoT) – NPTEL

- Cloud Virtual Internship – AWS Academy & EduSkills
- Generative AI Virtual Internship – Google Cloud & EduSkills
- Data Engineering Virtual Internship – EduSkills Academy
- Database Management System Certificate – CodeChef

CAREER OBJECTIVE

Seeking opportunities as a Software Engineer to apply analytical thinking and programming skills in real-world projects while continuously improving technical expertise.
